

# Week 4 Lab ↕

---

**Due** Sep 18, 2022 by 11:59pm      **Points** 100      **Submitting** a file upload  
**File Types** html      **Available** until Sep 18, 2022 at 11:59pm

---

This assignment was locked Sep 18, 2022 at 11:59pm.

In this lab you are going to style [mybargains.html](#)

(<https://calstatela.instructure.com/courses/80633/files/11500672/preview>) using [Bootstrap](#) ↗

(<https://getbootstrap.com/>) so that the page looks and behaves like what's shown in [this video](#) ↗

([https://www.youtube.com/watch?v=ApE10ZTQC\\_Y](https://www.youtube.com/watch?v=ApE10ZTQC_Y)). You are free to add, remove, change, and reorder any HTML elements in the page, but for styling, you must use exclusively what's provided by Bootstrap - that is, you may not use any additional stylesheet (internal or external) or inline style other than what's already in the page (namely, the min-height style for the two ad blocks).

Specifically:

- Use [Grid](#) ↗ (<https://getbootstrap.com/docs/4.5/layout/grid/>) to create the layout and the responsive behavior.
- Use [Navbar](#) ↗ (<https://getbootstrap.com/docs/4.5/components/navbar/>) for page header and menu.
- The logo is the [bitcoin icon](#) ↗ (<https://fontawesome.com/icons/bitcoin>) from [Font Awesome](#) ↗ (<https://fontawesome.com/>) with large size.
- Use [Cards](#) ↗ (<https://getbootstrap.com/docs/4.5/components/card/>) for deals.
- Use [Buttons](#) ↗ (<https://getbootstrap.com/docs/4.5/components/buttons/>) to style the "See Deal" links.
- Use [Colors](#) ↗ (<https://getbootstrap.com/docs/4.5/utilities/colors/>) to set the background color of the footer and the ads.
- Use [Spacing](#) ↗ (<https://getbootstrap.com/docs/4.5/utilities/spacing/>) to adjust margins and paddings.
- Use [Borders](#) ↗ (<https://getbootstrap.com/docs/4.5/utilities/borders/>) to style the borders.
- Use [Text](#) ↗ (<https://getbootstrap.com/docs/4.5/utilities/text/>) for text alignment.
- Use [Display](#) ↗ (<https://getbootstrap.com/docs/4.5/utilities/display/>) to hide both ads and "Trending Deals" when the page is displayed on smaller screens.

Please upload mybargains.html to your CS3 account and make sure it works properly on CS3. Create another HTML file lab4.html which contains a hyperlink to your mybargains.html page on the CS3 server. Submit both HTML files to Canvas.
