

Week 16 Overview

Activities

1. Watch the lecture video: Asynchronous JavaScript and XML (AJAX). You can find the lectures notes used in the video in the Lecture Notes section and the sample code in the Sample Code section.
2. Post your questions and comments in the weekly discussion.
3. There is no additional assignment this week.
4. Final will be held from 12:00pm to 2pm on Wednesday 12/15. Information about the final can be found [here \(https://calstatela.instructure.com/courses/80633/pages/final-information\)](https://calstatela.instructure.com/courses/80633/pages/final-information).

Learning Objectives

The learning objectives of this week are:

- Understand what XMLHttpRequest is.
- Understand how to use XMLHttpRequest to send a request and handle the response.
- Understand the concept of asynchronous programming.
- Understand what AJAX operations are.
- Know how to use jQuery.ajax() to implement simple AJAX operations.
