

# Week 8 Overview

## Activities

1. Watch the lecture videos: Introduction to JSP and MVC Architecture, and Expression Language (EL). You can find the lectures notes used in the video in the Lecture Notes section and the sample code in the Sample Code section.
2. Post your questions and comments in the weekly discussion.
3. Complete Week 8 Quiz by Sunday 10/17.
4. Complete and submit Week 8 Lab by Sunday 10/17.

## Learning Objectives

The learning objectives of this week are:

- Know how to create and access a JSP in Eclipse.
- Know the syntax and usage of JSP Scripting Elements.
- Understand Model-View-Controller (MVC) architecture.
- Know how to forward a request from a servlet to a JSP.
- Know how to pass data from a servlet to a JSP using request scope.
- Know the difference between redirecting and forwarding.
- Know how to create and use Java properties.
- Understand the syntax of Expression Language (EL)
- Know how to access scoped variables and their properties using EL.
- Know how to access implicit objects and their properties using EL.
- Understand EL operators and how they are evaluated.
