

## Week 2 Lab

---

**Due** Sep 4 by 11:59pm      **Points** 110      **Submitting** a file upload  
**File Types** html and css      **Available** until Sep 4 at 11:59pm

---

This assignment was locked Sep 4 at 11:59pm.

1. (30pt) Create an HTML page **BoxOffice.html** that looks like what's shown in the picture below:

### Domestic Box Office For Jan 24, 2020

Rank	Movie	Metric	Fri Jan 24
1	<a href="#">Bad Boys for Life</a> Sony Pictures Releasing	Gross	\$8,935,000
		Theaters	3,775
2	<a href="#">1917</a> Universal Pictures	Gross	\$4,020,000
		Theaters	3,937
3	<a href="#">The Gentlemen</a> (New Release) STX Entertainment	Gross	\$3,750,000
		Theaters	2,165

#### [Add Movie](#)

Note that

- Please use border="1" and cellpadding="2" for the <table> -- we'll be more HTML5-compliant later after we learn CSS.
- The text in the page and the URLs for the movies can be found in [BoxOffice.txt](#)   
([https://calstatela.instructure.com/courses/80633/files/11500720/download?download\\_frd=1](https://calstatela.instructure.com/courses/80633/files/11500720/download?download_frd=1)) .
- Clicking on the Add Movie link should take the user to the AddMovie.html page described in the next exercise.

2. (20pt) Create an HTML page **AddMovie.html** that looks like what's shown in the picture below:

## Box Office > Add Movie

Movie:	<input type="text"/>
Studio:	Sony Pictures Releasing ▼
Gross:	<input type="text"/>
Theaters:	<input type="text"/>
New Release:	<input type="checkbox"/>
Reset	Add

Note that

- You may omit the action and method attributes of the <form>.
- The form fields should be placed inside a table so they are properly aligned.
- The dropdown list should include four entries:
  - Sony Pictures Releasing
  - STX Entertainment
  - Universal Pictures
  - Walt Disney Studios
- Clicking on the Box Office link should take the user back to the BoxOffice.html page described in the previous exercise.

3. (50pt) Use CSS to style [csula.html](#) so it looks like what's shown in the picture below:

About Cal State LA | President Covino | News & Information

HEADLINES

Everytable celebrates grand opening at Cal State LA

There's a new restaurant at Cal State LA that has hungry college students lining up for healthy culinary delights: baked salmon over greens, sesame teriyaki tofu with brown rice, Jamaican jerk chicken, and citrus pecan salads.

Everytable is a grab-and-go restaurant, whose mission is to make nutritious, fresh food affordable and accessible to all. The Jan. 28 grand opening of its store on the campus of Cal State LA featured remarks from Everytable founder and CEO Sam Polk, Cal State LA President William A. Covino and Executive Vice President Jose A. Gomez.

Cal State LA receives million-dollar grant from Hauser & Wirth Gallery to support diversity in filmmaking

Cal State LA has received a grant of \$1 million from noted international modern and contemporary art gallery Hauser & Wirth to support the undergraduate program in the Department of Television, Film and Media Studies.

Located in the heart of Los Angeles, Cal State LA is committed to engagement and service for the public good. The university is ranked number one in the nation for the upward mobility of its students, many of whom are first-generation college students.

In particular:

- The first menu bar should have black background. The text should be white, right aligned, and in smaller font. The separator | should be in gold.
- CAL STATE LA should be in large font and vertically aligned in the middle next to the CSULA logo. See the answer to [this question](https://stackoverflow.com/questions/489340/vertically-align-text-next-to-an-image)  (<https://stackoverflow.com/questions/489340/vertically-align-text-next-to-an-image>) on StackOverflow for how to vertically align text next to an image.
- The second menu bar should have gold background, and all the text should be left aligned and in upper case.
- The headline titles should be in bold, larger font.
- The paragraphs of the headlines should be indented.
- The footer should have black background, and the text should be centered aligned and in smaller font.

For this exercise you must use an external style sheet, and you may not change the content, i.e. text, image, and links, of csula.html; however, you are free to add/change/remove tags and/or attributes.

4. (10pt) Upload BoxOffice.html, AddMovie.html, csula.html, and the style sheet to your CS3 account and make sure the page works properly on CS3. Create another HTML file lab2.html which contains two hyperlinks, one to your BoxOffice.html page on the CS3 server and one to your csula.html page the server. Submit all HTML files and the style sheet to Canvas.
